Lab: Create an IBM Cloud Account

Lab Objectives:

After completing this lab, you will have signed up for a free account on IBM Cloud.

Lab Overview:

IBM Cloud offers numerous cloud resources and services. In this hands-on lab, you will create a Lite account on IBM Cloud. You can subsequently use your IBM Cloud Lite account, in this course or otherwise, to explore the catalog and provision many cloud services at no charge.

Note:

This lab can be completed for free and a credit card is NOT required to sign up for an IBM Cloud Lite account. This lab can be completed from your desktop, tablet or mobile phone using a recent version of a modern web-browser like Chrome, Firefox, Edge, or Safari. You need to be able to access your email account to complete the sign-up process.

About IBM Cloud:

The IBM cloud platform globally deployed across data centers around the world, combines platform as a service (PaaS) with infrastructure as a service (IaaS) to provide an integrated experience. The platform scales and supports both small development teams and organizations, and large enterprise businesses.

The platform is built to support your needs whether it's working only in the public cloud or taking advantage of a multicloud deployment model. IBM Cloud offers a variety of services including Compute, Network, Storage, Management, Security, Databases, Analytics, AI and Cloud Paks.
